

Free Speech

Enjoy toll-free communication with the MultiVOIP® Voice over IP Gateways

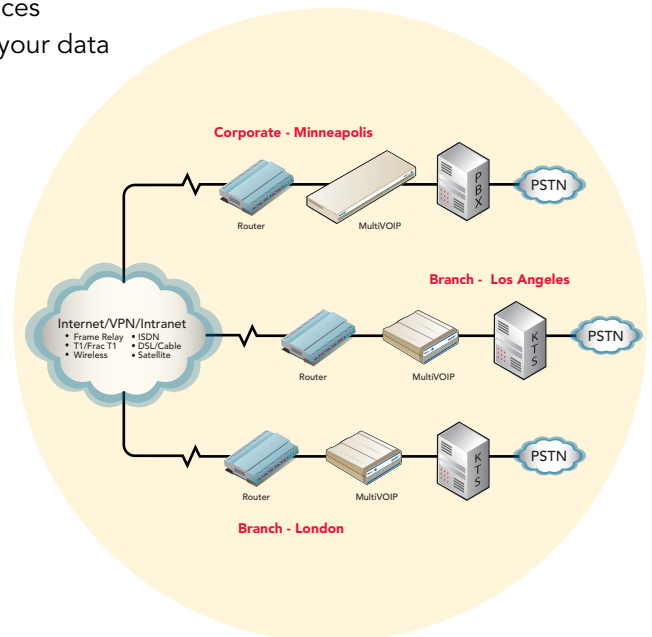

The MultiVOIP® voice over IP gateway provides high quality, inter-office communications solution by seamlessly converting analog voice and fax communications for delivery over your existing data network to save you money.

Benefits:

- Quick ROI
 - Eliminates long distance charges between offices
 - Helps maximize investments already made in your data and voice network infrastructure
 - Payback = 3 months to a year
- Creates an office premise extension for small branch or home offices – even international
- Easy integration – MultiVOIP transparently interfaces with any phone system
- Supports supplementary services such as call transfer, forward or hold

Ideal for:

- Colleges/Universities
- Banks/Mortgage companies
- Medical/Dental offices
- Insurance companies
- Transportation companies
- Construction companies
- Municipalities
